Called up by: Dr. Klaus Ruediger Hase.
Minutes by: Stefan Rieger.

Participants:

WP6, Stefan Rieger, Bernd Hekele, Peter Mahlmann, Marielle Petit-Doche, Jan Welte

Meeting Time: from 09:00h to: 09:30h

Type of conference: Telco

Agenda

1. Special Session at IEEE INDIN 2013

2. Collection of openETCS Terminology

3. D6.1 Dissemination Plan

Discussion

1. Special Session at IEEE INDIN 2013
   Today is the submission deadline but we are working towards another deadline extension. You
   will be informed as soon as there are any news.

2. Collection of openETCS Terminology
   DB and Jan Welte will setup a system/process for collecting openETCS terminology. This will
   most likely be Github-based. More details will follow.

3. D6.1 Dissemination Plan
   We discussed the current state of the dissemination plan and decided to add concrete responsi-
   bilities to the individual parts.

   TODO:
   Please check the current version of the dissemination plan on Github

   with regard to missing contributions that are marked in red. For every element, the responsibili-
   ties are given in the document. Please commit or contribute via Github, or, if this is not possible
   for you, send me an email with your contribution. Please provide your contributions until next
   Thursday (21/3) for us to have a preliminary version to discuss on Friday,
   Thank you in advance for your help!
